-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 September 2006.

DETAILED ACTION

Supplemental Restrictions

1. Applicant's election without traverse of Species A (claims 1-27 and 33-37) in the reply filed on 9/8/06 is acknowledged. However, upon further consideration of the elected claims, it had been inadvertently overlooked that same contain further species which require a second election. In addition, it appears that the conformational changes set forth in claim 14 are within the scope of Species B and would fall within that species.

Specifically, the elected invention Species A (claims 1-13, 15-17, and 33-37) contains claims directed to the following patentably distinct species:

A1: method of producing a food product which employs adjustment of the ionic composition of the hydrated protein solution to enhance its ability to emulsify fat in water (claims 15-22 and 33-37).

B1: method of producing a food product which employs adjustment of the pH of the hydrated protein solution to enhance its ability to emulsify fat in water (claims 23-26).

The species are independent or distinct because they involve completely different modes of treatment in adjusting the composition of the protein in solution.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-13 and 27 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Weier whose telephone number is 571-272-1409. The examiner can normally be reached on Monday-Thursday.
